

Putting out the Fire:

Advances in the Treatment of Chronic Heartburn

2012 Seminars

February 9

March 6

For many people, gastroesophageal reflux disease (more commonly known as GERD, acid reflux or heartburn) is a chronic condition that causes intense pain, keeps them from doing what they enjoy and can even lead to more serious illnesses when left untreated.

Join us for a free informational seminar with Dr. Nirav Rana.

Seminars are held on
Tuesday evenings, from 6:30 -7:30,
at Mountainside Hospital's
Bayberry Café, 1 Bay Avenue, Montclair.

To register for a free seminar, please visit
mountainsidehosp.com/gerd
or call 1-888-973-4674.
